FINIS TO THE CAMPAIGN

HE Morning Sun having placed wreaths and garlands upon the noble brows of the republican winners in Tuesday's election, having mourned with the fallen and lamented the "sad mistakes of the ignorant voters." and gloomed with Chairman Ed. Cunningham over his failure to carry the county for Colonel Thompson, the republican candidate for governor, the local campaign may now be considered officially closed. And in this the Morning Sun is but following the pathway of its predecessors in local republican journalism. As we read the glad-sad editorials in this morning's paper, we rubbed our eyes and hastily looked at the masthcad of the paper, wondering if the shade of Valjean, or Charlie Hard, in the flesh, had not again mounted the editorial chair instead of our dearly beloved brother and his editorial council. But Lo, the same old name was there, but it was only speaking the same old language of standpatism, republican righteousness and democratic deviltry.

The only discordant note we find, in comparison with the past, is that had Valjean been writing the finis to the campaign, he would have shouted from the housetops that "Shorty Weidner and his family of office holders and his fabulous gasoline bills, had been vindicated, invited "Shorty" to "tell the d-d Times to go to h-l", give another sand bar party and "invite the d-d skunk that rattled around in The Times editorial columns" so that he could see what innocent affairs they really were. At the same time Valjean would have urged all republican attendants at the feast to keep their distance from the democratic pole cat for fear they would get the pip.

Yes, with that little touch the Morning Sun editorial would have lived up to the best traditions of republican journalism in Scioto county. And we think "Shorty" Weidner ought to park his county flivver with the Morning Sun editor until he gives him his "vindication."

It is sometimes helpful to get the other fellow's point of view, even if it has been dulled by much use.

To the denominational mind, these services constitute a departure from orthodoxy. Yet men and women of apparent intellectualism are attendfug. Limousines wait at the curb and silk hats are profuse. Of course, there are many who are attracted by

He is a product of the gatter and in a prize fight once he says he was "bammed right up against the poily gates," Billie was an atheist. "But I hold the holps," he declares," and I know there's

# GAS INTHE STOMACH

To Overcome Trouble Caused By Fermenting Food And Acid Indigestion

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach creating so-called "acid indigestion."

Acid stomachs are dangerous because cause too much acid irritates the delicate linling of the stomach often leading to gastritis accompanied by serious stomach ulcers. Pood ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

ers the normal intentions of the that internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist at few ounces of Elsurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloat right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bisurated Magnesia (in powder or tablet formever in liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes, it is used by thousands of people who enjoy their meals with no more fear of indigestion.—Advertisement.
